USC Resident Information

Move-In Guide
2016-2017

USCHousing
WELCOME TO USC HOUSING

We hope this academic year proves to be a successful one for you and want to assist in that by making your transition to living in university housing easier.

This brochure is designed to provide residents with useful information about our services, facilities and procedures that will make your stay more enjoyable. Please take the time to read through it and become familiar with what it offers. It will answer many of your questions and make settling in a lot easier.

For more details, important dates and specific provisions regarding living in USC Housing, please refer to the Housing Living Agreement available in the Forms section of our website at housing.usc.edu.

If you have any questions that were not covered in this brochure, please be sure to contact the main Housing Office or Customer Service Center for your building. Our professional and experienced Housing staff will be happy to provide you with answers.

From the entire staff of USC Housing, here’s wishing you a rewarding experience!

CUSTODIAL SERVICES
Custodial Services is responsible for the overall cleanliness of the common areas of more than 50 buildings in the USC Housing system. The professional, well-trained custodial staff is devoted to providing a pleasant environment that is conducive to the educational goals and general living conditions of our student residents. Please contact your CSC during its business hours or the Housing Maintenance hotline (after hours) at (213) 740-4646 should any situation arise that requires our attention. If you have any concerns regarding the level of service, please contact your Customer Service Center.

CUSTOMER SERVICE CENTERS
Your Customer Service Center is your connection to many services provided by USC Housing. Please consult the Housing Customer Service Centers Directory, located at the back of this brochure, to find the Customer Service Center (CSC) responsible for your building. Each CSC is staffed by a full-time professional Housing team including a Customer Service Representative and a Building Services Manager. Student support staff provides additional assistance at each center. CSCs are responsible for check-in and check-out procedures, housekeeping and maintenance issues, and building and resident services. Most of these services and responsibilities of the CSC are described in this brochure. Please feel free to contact your CSC during business hours if you have any questions or concerns. Business hours for CSCs vary, but all are open from at least 8:30 AM to 7:00 PM, Monday - Friday.

LAUNDRY FACILITIES
Each building has at least one laundry room with both washers and dryers, owned and operated by Wash Laundry Systems, a private company. Washing costs $1.50 a load and drying $1.25. All laundry machines are configured to accept only credit/debit cards. Residents must provide their own laundry detergents. USC Housing recommends that students not leave their laundry unattended. Please report all repair needs (include location and machine number) immediately to your CSC or the USC Housing Maintenance hotline at (213) 740-4646.

More information on laundry machines and their operation can be found at https://www.washlaundry.com/residents. WASH Laundry also offers on-line monitoring and an app for mobile users through their WaveVision service, https://www.mywavevision.com/. This information is posted in all our laundry facilities.

MAIL DELIVERY
The U.S. Post Office is responsible for mail delivery to off-campus University Housing facilities. Most on-campus buildings, however, have their mail distributed by CSC personnel. To ensure proper and timely mail delivery, please refer to the address and phone directory on pages 14 - 15. Packages that do not fit into mailboxes are accepted at CSCs and held for the resident to pick up. You will receive an e-mail notifying you your package has arrived. To claim your package, please present a valid picture ID to your CSC. The Customer Service Centers are not responsible for perishable items. It is not recommended for cash to be sent via mail.
MAINTENANCE
The Housing Maintenance hotline at (213) 740-4646 operates 24 hours a day, seven days a week. Requests for service may be placed by phone, in person at your Customer Service Center or on the Maintenance website at hsmtma.usc.edu or just click on the “Submit Work Order” box on the main Housing homepage. It’s a good idea to keep the work order number assigned to your report (or a copy of the actual work order) to reference repairs not completed within five working days. Please keep in mind that during the first several weeks of each semester, the high volume of work orders placed by residents will result in longer completion times for requested repairs.

Maintenance issues affecting the health and safety of students or problems that might cause personal injury are considered emergency situation and should be called in immediately to (213) 740-4646. These issues would include: exposed live electrical wires, a broken gas line or gas leak, people stuck in an elevator, power outages, backed-up drains/toilets, inoperative fire alarm systems, inability to lock/unlock a unit door, broken windows jeopardizing security, and major water leaks.

PARKING PERMITS
USC Transportation provides parking close to all University Park Campus housing facilities. A permit is required to park in any USC structure or lot. Spaces are limited. Visit the Transportation website at www.usc.edu/parking to check on availability or to apply for a permit.

RECYCLING
Items such as aluminum cans, glass bottles, cardboard and newspapers should be recycled. Consult your CSC for the locations of blue recycling bins in university housing buildings.

ROOM INVENTORY
After you check in, you will be required to complete a room inventory checklist to record the condition of your room/apartment and its furnishings. This checklist will serve as a reference when cleaning, damage, and loss charges are determined at checkout. (A list of estimated charges for damages will be available to you.) Each resident in a room/apartment is required to complete the checklist within 48 hours of checking-in. It will be reviewed by the CSC to address maintenance, housekeeping and furnishing issues as soon as possible.

VACUUM CLEANERS
Each CSC offers vacuum cleaners for residents’ use. Residents may check out the vacuum cleaner by leaving a valid driver’s license or state ID card. The limit for the use of this equipment is usually one hour, unless otherwise stated.
DEPARTMENT OF PUBLIC SAFETY
The University’s Department of Public Safety (DPS) operates 24 hours, seven days a week and is located on the ground floor of Parking Structure “A”. All emergencies should be reported immediately to DPS at (213) 740-4321 or by using the blue-light DPS emergency phones located both on and off campus. DPS officers can be reached at (213) 740-6000 for non-emergency issues. DPS also provides Community Services Officers who patrol and monitor all USC Housing facilities from 8:00pm until dawn and 24 hours a day during semester and spring breaks.

EMERGENCY EQUIPMENT
Tampering with emergency equipment (fire alarms, smoke detectors, hoses, extinguishers, sprinkler heads, etc.) is a misdemeanor and violators will be brought before the student conduct system and may be subject to fines and criminal prosecution. To help us ensure your safety, please report any damaged or missing emergency equipment immediately to the Maintenance hotline at (213) 740-4646.

EMERGENCY EQUIPMENT CHECKS
All emergency alarm systems are tested on a regular basis. The exact date of the tests will be posted and evacuation will not be necessary.

FIRE/EMERGENCY DRILLS
Unannounced fire/emergency drills are held two times a year, once each semester. The drills assist residents in following correct procedures and directions in case of an actual emergency. Evacuations during the drills are mandatory and violators will be brought before the Office of Student Judicial Affairs and Community Standards.

BIKE PARKING
Be careful when parking your bike. Lock it securely to a rack. Make sure you do not block building entrances or access ramps. If your bike is improperly parked it will be impounded by the Department of Public Safety.

HEALTH AND SAFETY INSPECTIONS
Customer Service Center Representatives will perform room inspections each semester to ensure health and safety standards are being met and to identify potential hazards. Residents will receive advance notification of room inspections.

The inspections will concentrate on the following:

Safety Equipment
- Smoke detectors
- Sprinkler heads
- Security or fire escape grillwork

Fire Hazards
- Frayed and/or overloaded electrical wiring
- Stacks of newspapers or other paper
- Rags in corners, closets or near heaters
- Covered heaters
- Build-up of grease in ovens, broilers, or on stovetops
- Storage of gasoline or other flammable materials, or gas powered vehicle in unit
- Christmas lights on walls or curtain rods

Safety Hazards
- Door closers not working properly
- Hanging objects on curtain rods
- Objects stacked on A/C and/or heating units
- Windows without screens

Health Hazards
- Missing or broken sliding window stops
- Garbage or food improperly disposed of
- Grimy bathtub or shower surfaces
- Brown paper grocery bags improperly disposed of
- Aluminum cans or glass bottles improperly disposed of

Call the Maintenance Hotline at (213) 740-4646 to report broken pipes, gas leaks or other safety concerns!
KEYS AND LOCKOUTS
Your keys and USCard are your responsibility and should be carried at all times to avoid being locked out of your room or building. Do not leave them unattended. Do not loan them to anyone. Do not duplicate your key. It is a violation of your housing contract to rekey your door or any door to your building. If your keys are lost or stolen due to negligence, you will be charged for a lock change and replacement of your keys, your roommates’ keys, as well as spare keys for the CSC. There is a minimum charge of $75.00 for each lock change. You will also be charged for a lock change if the original keys are not returned to the CSC at check out. If you lose your USCard, report it immediately to the USCard office, located in Parking Structure “X”, phone number: (213) 740-8709.

• If you are locked out during business hours, go to your CSC for assistance.
• If you are locked out after your CSC has closed, call the on-call Resident Assistant (R.A.) for your area at the number posted at your building’s main entrance.
• If you cannot reach the on-call Resident Assistant, contact the Department of Public Safety (DPS) at (213) 740-6000.

Assistance for your first two lock-outs is free. Assistance for the third will incur a charge of $25.00 with the charge for assistance with subsequent lock-outs increasing by $25.00 for each instance. The sixth lock-out may also result in a judicial review. Terms and conditions governing keys for university housing can be found in the “Keys” section on page 13 of the Living Agreement that you agreed to upon accepting your assignment which is available in the forms section of our website at housing.usc.edu.

PERSONAL SAFETY
Although the Department of Public Safety operates 24 hours, all residents should assist with the following safety guidelines:

• In all on-campus housing buildings, a biometric system is used to limit access to the living areas to residents or their guests. Students assigned to these buildings will need to register their thumbprints after check-in.
• Close exterior doors and gates, including any which have been left propped open.
• Keep all interior doors closed and locked; use your dead bolt.
• Be aware of strangers who get on the elevators, walk down the halls, or whom other residents have allowed into a locked building.
• Do not allow strangers to “tailgate” into buildings or parking garages. “Tailgaters” follow closely behind you after you’ve accessed the parking gate or entrance in order to enter on your swipe.
• Report any suspicious activities or people.
ALTERATIONS
Alterations are not permitted in the individual units and/or the buildings. Residents may not remove any fixtures, appliances, equipment or furniture from units or public areas. Painting of rooms and/or public areas is not permitted, except by authorized University personnel.

NON-UNIVERSITY SERVICE PROVIDERS
Residents who are expecting service from a non-University provider, and will not be home to meet the service person, must make the following arrangements with their CSC:

(1) Written authorization for entry from the resident must be given to the CSC and include the following:
   • Resident’s name
   • Resident’s room/apartment number
   • The type of service person to expect (such as “TV repair person”) and the name of the company providing the service
   • The date and time that service is expected.
   • The resident’s signature

(2) The service company must be instructed to come to the Customer Service Center. Service personnel will be turned away if the above arrangements have not been made prior to their arrival.

PETS
Pets are not allowed in USC Housing facilities for legal, health and safety reasons. The only exception is tropical fish in a 10-gallon or smaller tank. Violating this policy will result in student conduct action as well as charges for fumigation, cleaning and damages. Pets are not permitted to “visit” at any time.

SMOKE-FREE ENVIRONMENT POLICY
All University housing facilities are smoke-free environments. This extends to all common areas, including balconies, and the interiors of housing units, even if the resident is the sole occupant.

SOLICITATIONS/POSTING POLICY
To protect resident’s privacy, solicitation is not permitted in University Housing facilities. If you notice solicitors in your building, please notify your Resident Assistant, your CSC or DPS. In accordance with Los Angeles Fire codes, residents are not permitted to post or display on walls or doors, in corridors and in most public areas and bathrooms within USC Housing facilities.

REASSIGNMENTS
To facilitate check-in, no reassignments (building or room changes) will be done until after the semester begins. Reassignment is open during the academic year from mid-September through early April. Information about when the process begins and the procedures for requesting a reassignment will be sent to you by e-mail soon after check-in or available at your CSC.

COMMUNICATIONS FROM THE UNIVERSITY
All official e-mail communication to students in University Housing will be sent to their USC e-mail address. Residents will need to check their USC e-mail address for Housing information. Please review the University of Southern California e-mail information listed in the USC SCampus Student Guidebook under University Governance, F-2 which can be found online at http://scampus.usc.edu/
HOW TO REPORT PEST PROBLEMS

To report pest problems, contact the Housing Maintenance office at (213) 740-4646 with a detailed description of the problem. The Housing Maintenance Office is available 24/7. Ecolab handles pest control needs for USC Housing. If you call the Housing Maintenance Office number after hours or on weekends, your call will be handled by a representative who will determine if an Ecolab technician should be notified and will usually be handled the next regular business day.

PEST CONTROL CHEMICALS

Whenever a resident requests pest control action to occur inside the residence, information on what agent was used and any pertinent instructions that Ecolab recommends can be provided.

FURTHER QUESTIONS

If you have further questions, contact your Customer Service Center (CSC), the Housing Services Office at (213) 740-1809 or the Housing Maintenance Office at (213) 740-4646.

INTEGRATED PEST MANAGEMENT PROGRAM

HOW TO PREVENT AND ALLEVIATE PEST PROBLEMS

USC Housing doesn’t have a pest problem and we would like to keep it that way. Our integrated pest management program is designed to keep our facilities pest-free and includes:

1. Education of residents on how they can prevent, identify, report, and alleviate pest problems in their rooms or apartments.
2. Staff training and operational procedures to identify and eliminate sources of pests.
3. Response protocols to address specific problems brought to our attention.
4. Pest control services provided by a professional, experienced pest control management company.
5. Extermination / clean-out services for all USC Housing facilities twice yearly, at no cost to residents.

Ants

Ants prefer different foods according to species and environmental conditions. Some ants will appear to favor sweets, others to favor meat, and still others to zero in on seeds/plants. Ants venture indoors looking for food, especially during the winter rains and summer heat. Good housekeeping is very important because ants will go elsewhere if there is no food or water to attract them. If you have ant problems, contact your Customer Service Center to arrange for a pest control representative to follow up.

Bedbugs

Since bedbugs are nocturnal feeding insects they normally bite people while they sleep. Evidence of bedbug bites comes from blood spots on bed clothing and irritation from salivary secretions. Read What You Should Know About Bedbugs on our website for important information on prevention of bedbugs and report the problem to your CSC right away.

Cockroaches

Discourage roaches by keeping your residence neat and clean. They can go for weeks without food or water, and they breed and hide in trash. Store food in containers that roaches can’t get into. If you have a roach problem, arrange for a pest control visit.

Fleas

Fleas live primarily on warm-blooded animals, especially feral cats. They pierce their hosts’ skin for blood meals and lay their eggs on or nearby their host animals. Call your CSC if you think fleas are making a home in your residence.

Rats and Mice

Rats and mice look for food and shelter indoors during the rainy season. To prevent rodent infestations, clean up food sources and close off pest entry points. Outdoors, make sure to keep your residence and surrounding property clear of trash and debris. Use of patio areas as storage will provide a place for rodents to live. Indoors, keep doors closed, remove trash, and vacuum all cracks and crevices from floor to ceiling. Arrange for a visit from pest control if you suspect you have a rodent problem.

Spiders

Spiders look for warmth and move indoors during the winter. Be careful to shake out anything that has been stored outside, especially items that have been placed against walls. To make your residence less suitable for spiders, eliminate the insects they eat and vacuum their webs. Contact your CSC if the spider problem persists.
Who is required to pay for electricity utilities?

Residents of the following buildings are required to pay for electricity service:

- Annenberg House
- Cardinal Gardens Apartments
- Cardinal ‘n Gold Apartments
- Century Apartments
- La Sorbonne Apartments
- Manor House
- Pacific Apartments
- Stardust Apartments
- Troy Hall Apartments
- Troy Hall East Apartments
- Vista Apartments

Residents who share an apartment with a Resident Assistant (R.A.) or residents who occupy an apartment with a roommate whose share of the electricity bill will be paid by a University department will be billed only on their own share of the electricity bill.

What dates are residents responsible for electricity?

This academic year residents in single student housing apartments and who have contracts that end May 10, 2017 are responsible for electricity service from Wednesday, August 17, 2016 to Wednesday May 10, 2017. Residents with longer contracts are responsible for their electricity service for the entire period of their contracts.

Do you need to apply for service?

No application is required. Do not contact the L.A. Department of Water and Power (DWP) to set up an account for service. USC Housing will pay all electricity bills from DWP and will bill residents on the USC billing system (student account).

How will your share of the electricity bill be calculated, and when will you be billed?

The electricity bill from DWP will be divided among the residents who occupied the apartment unit during the billing service period and will take into account the number of days that you were contracted for that unit during the billing period. Electricity bills are based solely on usage as determined by DWP. USC Housing will not add any additional fees to your share of the electricity charges.

When will you be billed?

We expect to bill residents once every two months on the University billing system. DWP will send a bill to Housing for July and August 2016 electricity service charges in September, and Housing will charge your share of the bill on your October 2016 billing statement. September and October 2016 service will be billed on your December 2016 billing statement and so on. Residents whose contract ends at the end of the Spring semester in May 2017 can expect the last charges for their electricity to appear on their July 2017 billing statement.
Q: If you are sharing a portion of the bill, does it matter if you conserve electricity or not?

A: Yes, as a whole, if each person takes steps to conserve energy, the overall total bill will be lower, which will make your portion lower. Additionally, it is good practice to conserve energy because it is a limited resource.

Q: What are some ways you can contribute to conserving energy in your building?

A: Turn off all unnecessary lights and appliances and do not leave electronics on standby. Using energy efficient light bulbs can save lots of electricity.

Q: Are there other simple ways you can conserve energy?

A: If you are boiling water, only fill the kettle with the amount of water you need. You’ll get your drink or soup quicker and you’ll save energy too!

Q: Should I use a surge protector?

A: A surge protector not only helps guard your electronics from an unforeseen spike in power, it can help save energy. Many electrical devices draw power even when they are turned off, and a surge protector lets you turn off multiple devices at a single flip of a switch.

---

**Light Emitting Diode (LED)**

**Efficient:**
LEDs are four times more efficient and last up to 25 times longer than incandescents. A 20 watt LED has about the same light output as a 100 watt incandescent. LEDs use 50 - 80% less energy than incandescents.

**Less Expensive:**
Although initially more expensive, you save money in the long run because LEDs use 1/10 the electricity and last up to 25 times as long as incandescents. A single 18 watt LED used in place of a 75 watt incandescent will save about 570 kWh over its lifetime.

**Reduces Air and Water Pollution:**
Replacing a single incandescent bulb with a LED will keep a half-ton of CO₂ out of the atmosphere over the life of the bulb. If everyone in the U.S. used energy-efficient lighting, we could retire 90 average-sized power plants. Saving electricity reduces CO₂ emissions, sulfur oxide and high-level nuclear waste.

**High-Quality Light:**
Newer LEDs give a warm, inviting light instead of the “cool white” light of older fluorescents. They use rare earth phosphors for excellent color and warmth. New electronically ballasted LEDs don’t flicker or hum.

**Versatile:**
LEDs can be applied nearly anywhere that incandescent lights are used. Energy-efficient LEDs can be used in recessed fixtures, table lamps, track lighting, ceiling fixtures and porch lights.

Don’t use a LED bulb to replace a stove light.

---

Changing the world starts with simple actions.  
*Go online to find more ways to conserve energy.*
CABLE TV SERVICE
Cable service is provided in each apartment and residence hall room at no charge. Our service also includes a wide variety of channels, many in HD, as well as free HBO and Showtime. This service is already active and ready for you to connect to.

To set up your cable connection, you will need the following:
- Cable-ready TV or VCR with a “QAM” tuner.
- Coaxial cable to connect your TV/VCR to the wall jack.
- Programming instructions for TV/VCR.

Once your TV is connected to the wall jack, be sure to access your set’s Menu function and run a “channel scan” to make sure you will be able to view all the stations. You may need to re-scan periodically to catch updated programming.

For any questions or additional help in setting up your cable connection contact the maintenance hot line at (213) 740-4646 or visit the Housing maintenance website at http://hsmtma.usc.edu/.

TELEPHONE SERVICE
Due to the increasing cost for telephone service and the preference of college students for cell phones, USC no longer provides land line telephone service in rooms and apartments. As lines were de-activated in rooms and apartments a number of phones were installed in public areas for use in emergencies, to dial five digit campus numbers and 911.

If a local telephone line in your room or apartment is necessary, you may have your line reactivated, at your own cost. You can arrange for phone service by contacting Housing Maintenance at (213) 740-4646; a monthly fee will apply.
Here’s how to get ResNet connected:

**RESNET (Residential Internet)**
All USC Housing facilities are equipped with high-speed wireless service. Individual Ethernet connections are available; you will need both an Ethernet card and an Ethernet cable. If you do not have an Ethernet card or cable, you can purchase them at the University Bookstore.

**Step 1**

**Make sure your USC e-mail is activated:**
You probably activated your e-mail account during orientation at the first login website. If you have not already done so, then please visit www.usc.edu/firstlogin. Activation of your account may take from 1 to 2 hours. You will use the username and password that was created with your first login to connect to ResNet. (Note: your username is usually your email address without the “@usc.edu” at the end).

**Step 2**

**Register your Ethernet card:**
If your computer has not connected to the network before, it will need to be registered. To do so, simply plug it into the Ethernet jack provided for you in your room and open your internet browser. You should be automatically taken to the Network Registration Page. You will enter your USC username and password to register your computer. After registration, your connection should immediately become available.

**If you cannot connect:**
- Make sure you have an Ethernet port. If it is not built in, make sure that your card is properly installed.
- Check your cord for any damage and make sure that it is plugged into the correct port on your computer. Also, check to see that it is plugged correctly into the wall. Verify that you did not accidentally plug it into the phone jack. The Ethernet jack will be colored, the phone jack will be white. Try disabling any wireless connections. These may interfere with you connecting to ResNet.

If you still cannot connect contact Housing Maintenance for ResNet support at (213) 740-4646.
