For building descriptions, room types, floor plans, rents, virtual tours and online application, please visit [http://housing.usc.edu](http://housing.usc.edu)
USC Housing Renewal (‘UHR’ for short) is USC’s program for current residents to return to university housing for the next year. UHR is easy and convenient, since it takes place almost entirely online. Completing your application, selecting your housing, contracting for your assignment, even picking roommates – nearly everything will be done on our website.

To be successful at UHR just follow these simple steps:

1. Select a category – UHR is divided into categories that take into consideration the type of housing that participants are looking for, as well as their current housing assignments and class standing. Pick the category below that best matches your housing goals for next year.

   - **Special Interest Communities (p 4)** – Residents interested in living in one of our special interest programs may request to do so by choosing this category.
   - **Graduate and Family (p 5)** – Graduates and family housing residents who wish to return to their current assignment should select this category.
   - **General Lottery (p 6)** – Most residents will participate in this category. A lottery will be used to determine online selection times when participants may select from available housing spaces and confirm a contract.

2. Apply on time – You can’t participate in UHR if you don’t apply by the January 23 application deadline.

3. Know your options – USC Housing has a wide variety of buildings, room types and communities. Take some time to go to the Housing website to see what is available and what suits your needs. Make a list of several buildings that would work for you (and your roommates).

4. Have a plan – Make sure you know how the category you have selected works by reading through the information in this brochure. If you have specific roommates in mind for next year, follow the roommate procedures for your category. Coordinate with your roommates in advance about housing choices and decisions. For example, if you both request a special interest community and only one of you is accepted, what will you do? If you are participating in the General Lottery category, bear in mind that the housing available at your lottery selection time may not include all of our buildings (popular buildings will probably fill quickly). It’s a good idea to have a list of alternative options that are acceptable to you (and your roommates) in case your first choices are not available.

5. Follow through – Once you have made your plan, follow through on it. Know when it will be your time to select your housing and be ready. If your roommate is selecting housing for your group and pulling you in, be sure to take the necessary steps to secure your assignment. Whichever category you choose, it’s essential that you confirm your contract by your category’s deadline so that you don’t lose your assignment.

We’ve tried to make UHR simple while still giving all of our returning residents as many options and choices as possible. You need to be informed to be successful, so take some time to read through this brochure. If you have questions, just contact your Housing Customer Service Center or the central Housing Services Office at (213) 740-2546 or housing@usc.edu. We’re happy to help!
**APPLYING FOR UHR**

Get started by going to the USC Housing website at [http://housing.usc.edu](http://housing.usc.edu) during the application period, January 18 - 23.

You must apply during the application period in order to participate in UHR.

---

**ONLINE APPLICATION**

**Clearing Financial Holds**
An uncleared financial hold will prevent you from applying for UHR. You must clear any financial holds placed on your student account prior to 5 PM on Friday, January 21. Collection issues are resolved at the Financial Services office located in Parking Structure “B.” Once your hold has been lifted, be sure to obtain a clearance letter and bring it to the central housing office in PSX before logging on to apply.

**Log-In**
Your user name is your 10-digit USC student ID number. Even if this is the first time you have used our online portal, your current resident status has already registered you and your basic personal information in our system.

All current housing residents will be emailed their password for access to the online application and assignment portal. Your password is fixed and cannot be changed. Please keep it private — you are responsible for everything done under your log-in, including confirming a housing contract. If you forget your password, you can request that it be emailed again to your USC account by clicking the ‘Forgot my password’ link on the portal login page.

**Term**
Prior to beginning your application, you will need to select the term you are applying for. All UHR participants must select “Academic Year 2011/2012.”

**Application**
Once you have selected the housing term you are applying for, the application process consists of several steps.

**Step 1 Begin Application**
This will start your application.

**Step 2 Personal and Contact Details**
This step provides you with the opportunity to verify and update some of your basic information, such as class standing and online screen name. Once you click the “Continue” button, your application information will be submitted to USC Housing. Your student account will automatically be billed the $45 application fee. This fee is non-refundable and required in order to participate in the renewal process.

**Step 3 Profile Questions**
Create your profile by answering a series of questions regarding your personal living preferences.

**Step 4 Application Category**
Here you will inform us which of UHR’s three categories best suits your housing needs for next year. If you choose to participate in our roommate matching process, your responses will be used to match you with a potential roommate.

**Step 5 Special Interest Housing**
If you have chosen the Special Interest (SI) category, here is where you should indicate the community you are interested in. You may only request to be considered for a single SI community. SI applicants will also need to complete the appropriate supplemental application and submit it according to the instructions provided on the application form.

**Step 6 Roommate Selection**
If you have a specific roommate in mind, you can request them in this step. You can also use our search tools to look for and communicate with potential roommates. (Roommate Requests, p 3)

The remaining steps of the portal process (room selection, contracting, etc.) will be locked until you receive an email notice of a pending assignment or your assignment selection time. At that point you will re-enter the portal and select the housing term you have applied for. The system will automatically take you to the next required step to receive a housing assignment in your category.

---

**PROFILE TAB**

Your profile includes your personal contact information, any physical or medical special needs we should consider and a series of questions about your personal living preferences. The more information you supply the better we will be able to respond to your needs and effectively communicate with you. Some key information (i.e. your name) is locked from editing. If you notice any errors in your key information, please send an email to housing@usc.edu and we will be happy to verify and correct these entries.

You can return to the portal to edit and update your profile at any time by logging on and clicking the ‘Profile’ tab.
Roommate Requests
You can search for and request roommates using our online tools. If you already have a roommate(s) in mind you can find them using details like their student ID or screen name, and request them on the ‘Add Known Roommate’ section of the portal. If you would like to compare profiles and identify new potential roommates based on how they match to your profile, the system can give you a listing of potential roommates to choose from. You will be able to contact potential roommates via our website, using your screen name.

Roommate groupings are only possible by mutual agreement. In order for a potential roommate to be available to you for assignment, they must be an ‘accepted roommate.’ Accepted roommates are pairs or groups in which one person has sent a roommate request that has been accepted by one or more students. Requests are sent from the roommate section of our online application. When you are selected as a requested roommate, or your request for a roommate has been accepted, the system will send you an e-mail inviting you to return to the portal for review and update of your roommate selections. To be eligible to be assigned together, you must have either:
• requested someone who accepted your request or
• accepted when someone requested you.

Accepted roommates are not automatically assigned together; you must follow the assignment and roommate guidelines for your chosen UHR category. All roommates within the group must be participating in the same category and be of the same class standing.

You can return to the roommate section of the application as many times as you like, up to the point when you are assigned housing.

Roommate information will be updated and available on the ‘Application Status’ page of the portal for participants who have a housing assignment. You can begin communication with your currently assigned roommate(s) via the screen name communication tools and share contact information as you see fit.

Note: While USC Housing strives to give residents the best possible chance to be assigned with chosen roommates, we cannot guarantee roommates will be assigned together.

Contract Confirmation
Regardless of the category used to gain a housing assignment, all UHR participants will need to confirm their contract online at the USC Housing website. Each participant must individually confirm their contract, confirmation by one roommate does not confirm the contracts of the entire roommate group.

• Contracts for the Graduate and Family Housing category are pre-assigned. Once notified by e-mail that their assignments are ready, participants should log in to our website, where they will be directed to confirm their contract.
• Contracts for the Special Interest and General Lottery categories must be confirmed at the time the assignment is made. If not, the selected space will be made available to others in the lottery process.

Step 8 ‘Contract and Finish’
In this step you will read through the Living Agreement and then confirm your contract. You must click on the ‘I Agree’ button to agree to the terms and finalize your contract; if you fail to do so, your contract will be cancelled. Clicking on the ‘I Agree’ button is the electronic equivalent of signing a contract, and by doing so you are agreeing to be legally bound by the terms of the Living Agreement. Finalizing your contract will result in your student account being charged the $800 confirmation payment.

Step 9, ‘Meal Plan’
This page applies only to those whose housing assignment comes with a mandatory meal plan and will indicate what plan is required. Most UHR participants will have no required meal plan for their assignments. To add or change a meal plan, go to the USCard website at: http://www.usc.edu/uscard.

‘Confirmation’
The Confirmation page will list the important details of your USC Housing assignment, including building, room type and the screen names of those students assigned to your room. You should print a copy of this page for your records.

Note: After confirming your contract, you may later opt to cancel it by the stated deadlines. (Cancellation, p 7)

Room Numbers
As you move through the selection and assignment processes online you will see references to specific room numbers. The system must use the room numbers to accurately update the available inventory. The specific room numbers referred to are not implied, promised, reserved or guaranteed to any individual applicant. USC Housing contracts are for a location and room configuration only. USC Housing retains and reserves the right to move or consolidate residents at its sole and absolute discretion.
SPECIAL INTEREST COMMUNITIES

You can request to continue in your current Special Interest (SI) community or to be assigned to a community that interests you during the online application process.

Application (Jan 18 – 23)
Residents choosing this category should follow the normal online application instructions. (Online Application, p 2-3) Applicants must indicate their desired program in the ‘Special Interest’ section of the online application. Only one SI community may be requested.

Special Interest Communities also require the completion of a supplemental application. The supplemental applications are not part of the Housing application portal and can be found at http://sites.google.com/site/uscsuppapps/. It is the applicant’s responsibility to complete and submit the required supplemental application by the deadline listed. SI applications should be submitted according to the instructions provided on the application form. Questions regarding supplemental applications should be referred to the Office for Residential Education at 740-2080.

Acceptance (Feb 4)
Housing for returners to Special Interest Communities is limited, as the majority of these spaces are located in the residence halls primarily reserved for incoming freshman. Acceptance to Special Interest Communities is determined by the Residential Education staff after careful consideration.

Those applicants chosen for SI will receive notification via their USC email account that they have been accepted into their requested community, and informed of their assignment selection date and time, determined by a random lottery. This information will also be posted in the ‘Room Search’ section of the online portal. Applicants not accepted will be able to seek an assignment in the General Lottery period.

Assignments and Contracting (Feb 7 – 10)
Participants chosen for SI housing will select their housing assignment, bring in roommates, and contract for their space online at the USC Housing website.

Housing Availability
• All UHR applicants chosen in the SI category will be able to contract for a space in the SI community to which they were accepted.
• While there will be enough space for all those accepted to a given SI program, the ability of applicants to select a particular room type within that SI community will depend on the inventory available at their individual selection time.

Assignments
Begin the assignment process by logging on to our portal at https://housing.usc.edu/portal during your designated lottery period.
• Go to Step 7, ‘Room Search’, and click on ‘Search’ to choose your housing from the inventory of available rooms for your SI community. Only housing available in your SI program will appear. Our search tools will allow you to look for housing by room type or available number of spaces, and then reserve a space.
• After selecting a room, you will automatically go to ‘Reserve Bed’ to assign yourself to the space you have chosen.

Contracting
Contracting will be done online at the same time that selections are made. Once you have assigned yourself to a space you must finalize your contract by clicking on Step 8 ‘Contract and Finish’ to agree to the terms of your contract. If you do not do so, your assignment will be cancelled. (Contract Confirmation, p 3)

Roommates
Roommate groups in the SI Communities category will be created during the application process. All roommates within the group must be participating in the SI category and requesting the same SI community. The group is made up of ‘Accepted’ roommates – those residents who have accepted a mutual roommate request in the application process. Only roommates who have been chosen for the same special interest community may be assigned together.

The member of the roommate group with the earliest assignment selection time will be able to assign the group at the same time they are assigning themselves by adding roommates from the drop down list to other beds in the apartment then clicking ‘Reserve Bed’. The student making the assignment for the group should make sure the room or apartment chosen has enough space for all the members of the group.

Roommates assigned ahead of their selection time will receive notification of their assignment by email. Students assigned by a roommate must still confirm their contracts individually in order to be assigned with their roommate. They will have 24 hours to confirm a contract for the space. If they do not, the housing space will be released and available for selection by others. Students may also choose to decline an assignment made by a roommate. This does not affect their lottery position; after declining an assignment they may choose from available spaces at their own assigned selection time.

It is possible that not all requested roommates will be accepted into a given SI program. If you are accepted and your requested roommate(s) is not then you will need to decide to either:
• confirm the contract for the SI assignment and not live with your requested roommate(s), or
• opt to not confirm the contract and seek an assignment with your roommates during the General Lottery.
GRADUATES AND FAMILIES

Residents of graduate or family housing who wish to renew the contracts for their current housing assignment (same building and configuration) may do so by following the procedures for this category.

Those who wish to change their housing assignment in some way for next year (move to a different building or change room types within their current building) will need to apply for the General Lottery category. Present residents who are currently not in graduate or family housing, but will qualify for such housing next year, will need to select the General Lottery period to seek an available space.

Application (Jan 18 – 23)
Residents choosing this category should follow the normal online application instructions. (Online Application, p 2-3)

Assignment (Feb 4)
Assignments for returning graduate and family students in this category will be renewed by USC Housing and notification sent by e-mail. Applicants in this category will only be assigned to their current contract (room type and building). Those who cannot be assigned in this category will be able to seek an assignment in the General Lottery category. (General Lottery, p 6)

Contracting (Feb 7 – 10)
Residents of graduate or family housing whose contracts are renewed will be notified by e-mail and directed back to the USC Housing website to accept or decline their assignment during the contracting period. (Contract Confirmation, p 3) Declining an assignment will automatically move the applicant into the General Lottery category. Contracts not confirmed by the February 10 deadline will be cancelled. Unlike other USC Housing contracts, those for family housing run on a yearly basis.

Roommates and Family Members
Graduates applying in this category may request a roommate in the roommate section of our online application. Such requests will work only if the requested roommate is living in the same building and room type and applying in this same category.

Family housing residents should be sure to answer ‘Yes’ to the application question asking if they are living with a spouse and/or dependents to be considered for this category. They will also need to list the required information about their spouse and/or dependent children. Qualifying documents, such as marriage and birth certificates, will be requested prior to move in to verify family status.
**GENERAL LOTTERY**

Most UHR applicants will participate in the General Lottery. Along with the majority of returning undergraduates, this includes graduates and family housing residents who wish to change their housing assignment for next year, as well as any applicants who were not selected in the Special Interest category.

Searching for and selecting a housing space will take place entirely online on the USC Housing website.

The General Lottery is divided into three parts: the Sophomore Lottery, the Junior/Senior Lottery, and Graduate/Family Lotteries. Each is defined by: when housing will be selected (selection times), the type and number of housing spaces available for selection, and who may be selected as roommates.

**Application (Jan 18 – 23)**
Residents choosing this category should follow the normal online application instructions. (Online Application, p 2-3)

**Selection Times (Feb 11)**
Applicants in the General Lottery will choose their housing assignments online during designated selection times. All applicants in this category will be issued a selection and contracting date and time based on a random lottery.

Students will be notified of their selection time by e-mail on February 11. This information will also be posted in the ‘Room Search’ section of the online portal.

The Sophomore Lottery will take place first, followed by the Junior/Senior and Graduate/Family Lotteries. (Sophomore Guarantee, p 7)

**Assignments and Contracting (Feb 14 - 24)**
General Lottery participants choose their housing assignment, bring in roommates, and contract for their space online at the USC Housing website.

**Housing Availability**
- At the beginning of the Sophomore Lottery, enough housing spaces will be allotted to ensure that every sophomore applicant can be assigned.
- Due to our commitment to the Sophomore Guarantee, USC Housing expects that most of our undergraduate housing will be assigned during the Sophomore Lottery. Therefore, we do not expect that there will be enough housing for all of the returning students participating in the Sophomore Lottery. Those who are not assigned during the lottery will be eligible for the Wait List. (Wait List, p 7)
- Some housing spaces in our more popular buildings will be reserved for the Junior/Senior Lottery to ensure that undergraduates of all class standings will have a chance to select those buildings.
- Housing in the Graduate/Family lottery should be adequate for most, if not all, participants to get an assignment during the lottery period.

**Assignments**
Begin the assignment process by logging on to our portal at https://housing.usc.edu/portal during your designated lottery period.

- Go to Step 7, ‘Room Search’, and click on ‘Search’ to choose your housing from the inventory of available rooms appropriate to your class-standing and gender. Our search tools will allow you to look for housing by building, room type, and available number of spaces, and then reserve a space.
- After selecting a room, you will automatically go to ‘Reserve Bed’ to assign yourself to the space you have chosen.
- Be sure to assign all roommates before clicking ‘Reserve Bed’; you won’t be able to go back and add roommates after doing so.

**Contracting**
Contracting will be done online at the same time that selections are made. Once you have assigned yourself to a space you must finalize your contract by clicking on Step 8 ‘Contract and Finish’ to agree to the terms of your contract. If you do not do so, your assignment will be cancelled and your space placed back into inventory. (Contract Confirmation, p 3)

Once the contracting period ends, or there are no more available spaces, applicants who have not confirmed a housing contract will be notified of their Wait List options.

**Roommates**
Roommate groups in the General Lottery will be created during the application process. All roommates within the group must be participating in the same lottery (i.e. sophomores may only select other sophomores, juniors and seniors other juniors and seniors, and grads may pick only other grads). The group is made up of ‘Accepted’ roommates – those residents who have accepted a mutual roommate request in the application process. Only roommates who have been accepted to the same special interest community may be assigned together.

The member of the roommate group with the earliest assignment selection time will be able to assign the group at the same time they are assigning themselves by adding roommates from the drop down list to other beds in the apartment then clicking ‘Reserve Bed’. The student making the assignment for the group should make sure the room or apartment chosen has enough space for all the members of the group.

Roommates assigned ahead of their selection time will receive notification of their assignment by e-mail. Students assigned by a roommate must still confirm their contracts individually in order to be assigned with their roommate. They will have 24 hours to confirm a contract for the space. If they do not, the housing space will be released and available for selection by others. Students may also choose to decline an assignment made by a roommate. This does not affect their lottery position and they may choose from available spaces at their own assigned selection time.
USC's Sophomore Guarantee mandates that current freshmen who follow all UHR procedures and deadlines will be assured a housing assignment. USC Housing complies with this directive by allowing UHR applicants who will be sophomores next year go first in the General Lottery.

- The guarantee applies to freshman who entered university housing in either the fall or spring semesters, and are applying to return to university housing for the following academic year.

SOPHOMORE GUARANTEE

USC HOUSING RENEWAL 2011–2012

WAIT LIST, CANCELLATION AND REASSIGNMENT

Wait List
This year we anticipate that, as in recent years, the demand for housing from returning students will be greater than our supply of spaces. If, at the conclusion of the General Lottery, we have unassigned UHR participants we will start the UHR Wait List.

Beginning February 28, unassigned UHR participants (only) will need to sign up for the Wait List in order to be eligible for housing; they will not automatically be placed on the list.

Your UHR lottery position will be used to determine your place on the Wait List. You will be contacted by USC Housing when a space becomes available.

While we cannot guarantee that everyone on the Wait List will get housing, we will make every effort to get assignments for those individuals who sign up. In past years, every student on the Wait List was eventually offered a housing assignment.

More details about how the Wait List works will be available after the end of the General Lottery.

Cancellations
Cancellation for Failure to Confirm a Contract – Your assignment will be cancelled if you fail to confirm your contract by the contracting deadline for your category.

Cancellation by Request – To cancel your confirmed UHR contract, please complete and submit a cancellation form to the central USC Housing services office in PSX. Forms are available on the USC Housing website at http://housing.usc.edu. You may cancel your housing contract any time up to the March 4 deadline without penalty; the $800 confirmation payment will be credited back to your student account. You may cancel between March 5 and May 2, but will forfeit the $800 confirmation payment. Please note that the $45 application processing fee is non-refundable regardless of when you cancel.

Reassignment
If, at the end of UHR, you would like to request a change in your assignment, or would like to be roommates with someone you were not able to link up with during the process, you may go to our website and print out a reassignment request form. USC Housing will begin accepting completed forms on March 7. These requests will be placed on a reassignment list and fulfilled based on eligibility, space availability and the order in which they were received.

More information on reassignment will be available in early March.

For more information please see the Sophomore Guarantee FAQ on our website at housing.usc.edu/faq.
RENEWAL FEES

Housing Charges
Participants in the USC Housing Renewal Process are responsible for an application fee when they apply and a confirmation payment once they confirm their contract. As returning students, they will have these fees charged to their student account.

Application Processing Fee
A $45 non-refundable application processing fee will be charged to your student account when you apply, even if you do not receive a housing assignment during UHR.

Contract Confirmation Payment
A $800 contract confirmation payment will be charged to your student account once you have confirmed a housing contract.

Half of this fee ($400) will be credited toward your fall semester rent and the other half to your spring semester rent.

USC HOUSING INFORMATION

Building Types
Residence Halls – Students live in double-occupancy rooms and share community bathrooms.
Suite-style Buildings – Most of our suite configurations have three or four double or single rooms and large bathrooms with double showers, sinks and toilets or two bathrooms within the suite.
Apartments – Our apartments are located both on and off campus. They offer privacy and convenience; all have bathrooms and most room types have full kitchens. In our undergraduate buildings, most bedrooms are double-occupancy. In our graduate buildings we have options for those students looking for a place where they can live by themselves or have their own bedroom.

Housing Amenities
Furnishings – All of university housing buildings include basic furniture appropriate to the room type.
Connections – Basic cable TV service, individual Ethernet connections and telephone lines are provided in all facilities and included in housing rent.
Meal plans – Some buildings, such as the residence halls, suite-style buildings, Honors House and certain other designated buildings have required meal plans. For more information check our website.

Room Types and Rents
Room types and rents vary considerably depending on the building and class standing of the residents. This information can be found in the individual building entries on our website.

The USC Housing Website
Make an informed choice about your housing for next year by exploring your options before you select your assignment.

For complete building information please visit the USC Housing website at: http://housing.usc.edu.

The website includes building locations and maps, the room types available in each facility, sample floor plans for all room types, virtual tours, a listing of amenities available in each building, and rental rates for each assignment type. Our search feature allows you to look for the housing that meets your specific needs.
